## **Chicago Urban League's Human Capital Youth Visit RR Donnelly Plant in St. Charles**

Earlier this week, 21 youth from CUL's Human Capital program visited the RRDonnelly plant in St. Charles, IL. In-store marketing materials for many of America's largest companies are produced at this site. During the plant tour, students saw how materials such as banners and menu boards are made and learned about the variety of careers available. The Q&A session over lunch gave the students an opportunity to hear directly from RRDonnelly employees. A video was then shown highlighting the value the company places on diversity particularly in the areas of age, race and abilities. It was a great day of learning and fun for our students.
